PRACTICAL MEASURES FOR PEACE.

The Forbearance of the Miners Endorsed.

HAZLETON, Pa., April 9, 1875. A dismal, rainy day has rendered things duli and uninteresting in this section. No incident worthy of record has transpired, and it may be said that all is quiet in the middle coal field. The soldiers stationed at Jeddo, Audenreid, Eckley and Buck Mountain are comfortable and cheerful and have been well received by the people, notwithstanding the very general distaste to their presence. There has been an industrious effort made to fement repugnance to the troops, which succeeded to some exient when the excitement incident to their arrival was its height; but now people begin to regard the situation in a calmer and more reasonable light, and there is a palpable and decided change in public sentiment. It is now admitted that the officers and men of General Osborne's force are here not by their own act, but against their will and to the detriment of their individual interests, and the feeling of repugnance is rapidly giving way to one of consideration and respect. The indications this evening are that if wise counsels prevail the trouble will be settled in a few days and the troops allowed to depart for their

Governor Hartranit telegraphed to the following effect to-day;—

A committee, composed of Richard Williams, of Audenreid; James Bryson, Sylvester Engle, Hon, J. C. Finener and Charles Schutter, of Razleton; Hugh MoGarvey, of Reaver Meagow, and John Brady, of Harleigh, representing citizens and miners, have to-day visited me and represented that the reports about the alieged disturbances in the vicinity of Hazleton are exagerated and some of them laise, and declare that if the troops are witndrawn there, and the other citizens and the miners' associations, whom they represent, they will colligate themselves, and, if necessary, will pledge themselves to supply 300 citizens to aid the Sheriff in maintaining order it disturbances occur, and that they, for the Citizens and Miners' Benevoient and other associations, will enter into a solemn agreement that what is known as "dead work" at the mines will not be interfered with, and that the parity swilling to do such work at the mines will not be interfered with, and that the parity swilling to do such work at the mines will not be noticed or prevented from so doing. I therefore ask that in the interest of law and order the Sheriff of Luzerne county will at once proceed to Hazleton and make a thorough investigation of the alleged disturbances and into the disposition of the miners to preserve order, and it he is satisfied that such a disposition exists, so that the gentlemen who have made the representations to me will be able to carry out with the miners the pledges they have made for them, and that the citizens will not be Sheriff of there is any nurther turbulent demonstrations. Then, after these guarantees are solemnly made in writing, the Sheriff will please so Inform me, that the troops may be withdrawn. J. F. HARTRANFT.

PROSPECTS OF PEACE.

PROSPECTS OF PEACE. This is the most important document connected with the existing situation, and the key to the whole difficulty. If the committee give the required guarantee, and the miners incorse their action, all cause of apprehension will be at once removed. There will be a meeting of the Lehigh Region Board, to-morrow, and the Board of Operators will also be in session at the same time. The simultaneous gathering of these two important bodies at this particular time is deemed very significant, since it is probable that a consultation will take place between them which will lead to peace or a prolongation of the bitter war 'twixt

capital and labor. THE MILITARY AND THE TELEGRAPHS. The situation remains unchanged. So completely do the military monopolize the telegraphic facilities that your correspondent is compelled to travel forty miles in order to obtain a wire. Many more soldiers have arrived since my last telegram.

more soldiers have arrived since my last telegram. They are distributed over an area of more than fitty miles. All breakers are guarded by the military, no maiter in what region of Luzerne county the breakers are situated. Troops are now stationed at Buck Mountain, Jeduc, Audenreid, Eckley, Dratton, Opper Lebuch, Jeansville. Ebervale and Highland, and comprise the following regiments:—

A battery of artiliery from Wilkesbarre.

First regiment National Guard, Philadelphia, Taree companies from Scranton: Pittston, one; Shickshimpy, one; Tunkhannock, one, Berwick, one, Susquehanna Denot, one.

Your correspondent visited all these localities to-day. There was not a miner to be seen anywhere, all having been neuffied of the arrival of the troops. They had congregated in the streets of Hazleton, thousands upon thousands strong, simply to survey the view, the marching and countermarching of the soldiers, who paraded the streets in the midst of a drencing rain.

OPINION OF AN OPERATOR.

At Jeddo, where Lieutenant Cotonel Clark has his neadquarters, all is quiet as can experience of the mintary necessary here is the weathy and independent operator. The only man I have met who seems disposed to consider the appearance of the mintary necessary here is the weathy and independent operator. But as he is a man who as only his own interests at stake, and to promote those interests would drive the miner down to the wall, his opinion under the present circumstances is worthy of but very little note, major Markle, a large operator at jeudo informed one of your representatives to-day that the presence of the iroops was absolutely necessary to preserve order and quiet. He states that near the collery in which he is interested several sams were burned down institute, and, of course, says the miners are responsible for the conflavration. I have tried to slit the matter to the bottom, and so far as my investigations proceed I am warranted in saying that these barns were set on fire by men engaged. I will not say by whom, on purpose to bring the laboring men into disrepute and place them in a false light, and give to the public generally a films vexcuse for the calling of the military. Thus it has been from the outset. Every measure calcumated to bring the men into disrepute and compet them to yield to the operators unreasonable demands has been induged in. The whole fact of the business is that no 10,000 people in any section of the United States are more quiet, orderly or to a greater execut disposed to keep the peace than these 10,000 miners, who stand autagonistic to the unjust terms of the operator here in Hazleton to-day.

First Presence of the military will remain, but if they returned home to-morrow this region would be more quiet and beacement than it is now. General Bertolett and Coloner Benson, in the alternoon, visited all the posts in the neighborhood on a special train, and were accompanied by several officers and a guard. All was well, fine fire in Stope No. I at Stockton, which was honced in th

PROBABLE WITHDRAWAL OF TROOPS—RESULT OF THE INTERVIEW OF A DELEGATION OF CITI-ZENS OF HAZLETON WITH THE GOVERNOR-GENERAL OSBORNE CHECKED-ADDRESS OF MR. WILLIAMS.

HARRISBURG, Pa., April 9, 1875.

A delegation of citizens of Hazioton, headed by Mr. Richard Williams, was here to-day remonstrating with Governor Hartranit against the employment of troops and requesting their instant withdrawal. Mr. Williams was three times elected as a republican Representative to the Legislature from a democratic county—Luzerne—and is an intelligent and industrious working tales, enjoying. In a high degree, the confidence of his loilow laborers. He and his associates denounced the course of Sheriff * Kirkendal, and regret that the Governor should have left to him and General Osborne so large a discretion as 10 call out the military. General Osborne, who commands the troops at Hazelous, is a Corporation Actorney, and was detexted lest year for Associate Law Judge of Luzerne county, mainly by the votes of the indict want impartainty of the Hestald reports from the mining regions so strongly in contrast with the exaggorated accounts to other new-spapers. Covernor Harvingh has informed General Gaborne by telegraph of this interview, and it is selleved that the troops will be immediately withdraws. as a republican Representative to the Legislature

Railread Company of this city to decide the question of a strike, which resulted in 1,512 for and 319 against work. The result has given the most unbounded satisfaction, and the merchants that up to now have deferred purchasing their spring stock of goods will purchase freely in consequence of this action of the men. Hyde Park, where the vote was taken, rules the Lackawanna region, and for the present there will be no strike in this vicinity. During a conversation with a reporter of the Ecianion Republican this evening, a coal operator from the upper end of the valley expressed his highest esteem for the sonship action of the men, and added that there was now a noble opportunity for the Delaware, Lackawanna and Western Company to do a good act, by giving the men not only the advance, out also the back pay which It would entitle them to from the first of the year. It would he said, be the means of preventing strikes in the Lackawanna coal region for twenty years to come. "Perhaps they will now advance their wages," suggested the reporter, "in recognition of their sensible conduct." "I think," was the reply, "that they would if they dare; but the combination of operators renders such action impossible. You may be sure that they will not lose sight of the manner in which the men behaved themselves," he added. Another operator and an experienced man in mining matters said if he were air. W. R. Storrs, the company's agent, he would now make a strong appeal on behalf of the men of the Delaware, Lackawanna and Western Company. In every branch of business the opinion expressed is the same, and the and for the present there will be and Western Company. In every branch of business the opinion expressed is the same, and the miners of flyde Park by their upright and many conduct have wrung from friend and foe alike the expression that they have done wisely and well.

THE BALLOT IN CHICAGO.

CHICAGO, ADril 9, 1875. The town clerk of South Chicago this morning refused to sign the certificates of those candidates who were declared elected in the recent municipal election. He justified his rejusal by stating that illeganties in the elections were carried to an extent which rendered them perfectly patent. Repeating was openly practised. The ballot boxes in the Fourth and Fitth wards were, he says, stuffed with between two and three thousand votes. He asked that the election be set aside for these reasons.

THE BLACK HILLS.

THE BOSTON EXPEDITION TO START IN MAY. BOSTON, April 9, 1875. Another meeting of those interested in the expedition forming under the auspices of Dr. 'ilitam Wright was held in Boston on Thursday afternoon. Addresses were made by Mr. D. K. Alien, President, and Judge W. W. Brooking, of Dakota Territory, but Mr. J. S. White, of Philadelpnia, failed to put in an appearance, having missed the train in New York. His letters and telegrams were read, giving it as his opinion, iounded upon thorough experience, that the 13th linst, was too early for parties to leave on account of the backward spring in the West. And, as his party are to leave on May 1, the question was detact, and by a large voice it was agreed that the Boston party should delay also with the 1st of next month. The Chairman of the Transportation committee stated that several members of the organization and already started "for the front," and if any others were ready to go and determined to do so, that he was prepared to carry them from Boston to the Black Hills, but he recommended them to wait for the main body. About fifty more names were added to the roll, which now numbers about 300. delpnia, falled to put in an appearance, baying

ANOTHER MASSACHUSETTS MURDER.

Boston, April 9, 1875. Between eight and nine o'clock on Thursday night, Dr. Shute, of Maiden, was called to Edgeworth to attend a man who was reported to be in adying condition. He immediately proceeded to the house of Patrick McDonough, who he found had died from injuries indicted upon him by John Glynn. An examination of the body of McDonough disclosed numerous bruises and contusions, and a shocking wound on the head two and a ball inches long and half an inch wide. The scalp was laid open and the skull fractured. This wound, which was probably indicted with a chisel, was alone sufficient to cause death. Dr. Shute informed Offi-

was probably indiced with a classe, was alone suidicent to cause death. Dr. Shute informed Officer Dianchard of the facts in the case, and that officer proceeded at once to the scene of the murder and arrested Giynn, who was laken to the lockup. The officer, accompanied by Deputy Sheriff Rhoades, then returned to the house of the murdered man and arrested Frank Conway and his brother, who are implicated in the affair, and placed them benind the bars.

It appears that the parties were all under the influence of liquor; that the brothers Conway had an altercation on Thursday morning with McDonough, who was their time by marriage, and that soon after sauset they came to blows hear the house of the deceased, when Giynn interfered and knocked McDonough down with a cusel and knocked McDonough down with a cusel and knocked him with his heavy brogans, which upon examination were found to be bloody. Deceased was about thirty-five years of age and leaves a widow. The murderer has a wite and four or five children.

Coroner Swett was notified and summoned a jury, who after viewing tae body adjourned the inquest to half-past seven o'clock this evening, Glynn was brought before Justice Pettengill, of the Eastern Middlesex District Court, and committed to await the result of the inquest.

Selections from his Diaries and Letters. edited by Sir Frederick Pollock, Bart. one of his Executors.,

with four Portraits engraved on steel by Jeens. 1 vol. 12ma. 815

The whole forms one of the most interesting, and, he many respects valuable records of artistic and social life as well as of the personal inward man. There is nothing courted that the reader has a right to expect it is nothing courted that the reader has a right to expect it cannot a recert as regards the history of the stage and of the home life of the actor. With respect to the inwards man Macradly is even sterner with himself and straults than he ever was with his reliew actors and their orderies. The book will raise him in the estimation of every reader."—London Athenaum.
